# TIMELINE OF EVENTS

The Holocaust was the systematic, state-sponsored persecution and murder of six million Jews by the Nazi regime and its allies and collaborators. It took place between 1933 and 1945. In 1933, more than 9 million Jews lived in Europe (1.7% of the total population). By 1945, the Germans and their allies and collaborators had killed nearly two out of every three European Jews. Nazi policies also led to the discrimination, persecution, and murder of millions of others. Explore a timeline of events that occurred before, during, and after the Holocaust.

# The Genocide Convention

## Background

The Convention on the Prevention and Punishment of the Crime of Genocide (Genocide Convention) is an instrument of international law that codified for the first time the crime of genocide. The Genocide Convention was the first human rights treaty adopted by the General Assembly of the United Nations on 9 December 1948 and signified the international community's commitment to 'never again' after the atrocities committed during the Second World War. Its adoption marked a crucial step towards the development of international human rights and international criminal law as we know it today.

# Holocaust Denial and Distortion

SHARE

Holocaust denial is any attempt to negate the established facts of the Nazi genocide of European Jews. Holocaust denial and distortion are forms of antisemitism, prejudice against or hatred of Jews. Holocaust denial and distortion generally claim that the Holocaust was invented or exaggerated by Jews as part of a plot to advance Jewish interests.

These views perpetuate long-standing antisemitic stereotypes, hateful beliefs that helped lay the groundwork for the Holocaust. Holocaust denial, distortion, and misuse all undermine the truth and our understanding of history.
